DETAILED ACTION

1. Receipt is acknowledged of the preliminary amendments filed 4/3/01.

Continued Prosecution Application

2. The request filed on 4/3/01 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/196,963 is acceptable and a CPA has been established. An action on the CPA follows.

Claim Rejections - 35 U.S.C. § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 28-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Hovakinian, US Patent No. 5,466,919, cited by the applicant.

Hovakinian discloses a credit/charge card system enabling purchasers to contribute to selected charities comprising: a system whereby a credit cardholder may make an automatic contribution to a selected charity or charities every time he or she makes a purchase of goods or services using the credit card. This would require a bank-expedited approach to identifying and paying the contribution to the given charity or charities. As such, assuming a willingness of credit card issuing organizations and banks to cooperate, there are only two things necessary for this system to work. These are a credit card which identifies the selected charity or charities, and a transaction processing method which enables the bank to pay the proper amount to a designated charity as well as including the normal cardholder billing (see figure 3).

Allowable Subject Matter

5. Claims 1-3, 6-10, and 26-27 are allowed.
6. The following is a statement of reasons for the indication of allowable subject matter: the best prior art of record fails to teach or fairly suggest bar coding customer-benefactor identification data on one side of the card and charity identification data on the other side of the card, wherein the plurality of charities are bar coded along the percent split of charitable contributions among the plurality of charities. These limitations in conjunction with other limitations of the dependent and independent claims were not shown by, would not have been obvious over, nor would have been fairly suggested by the prior art of record.
